- Help with accessible information for other subjects may be available also.

## Going Home!!

- After the hospital have finished with you, you can go straight home. You should be home in time for your lunch!

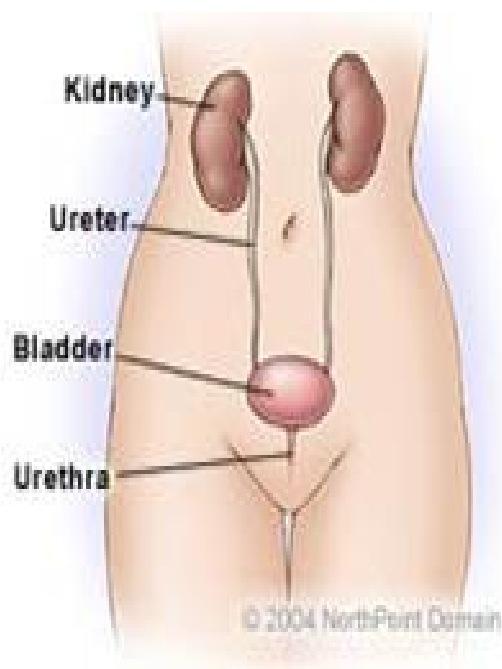

## How much do I drink?

- You can get drinks when you get to the hospital, the nurse can tell you how much you need to drink.

## What Is the Test?

- The speed of your wee coming out of your bladder needs to be measured.

## Don't Worry

- You won't need to get undressed for this procedure, you only need to show your tummy, maybe wear a blouse or t shirt?

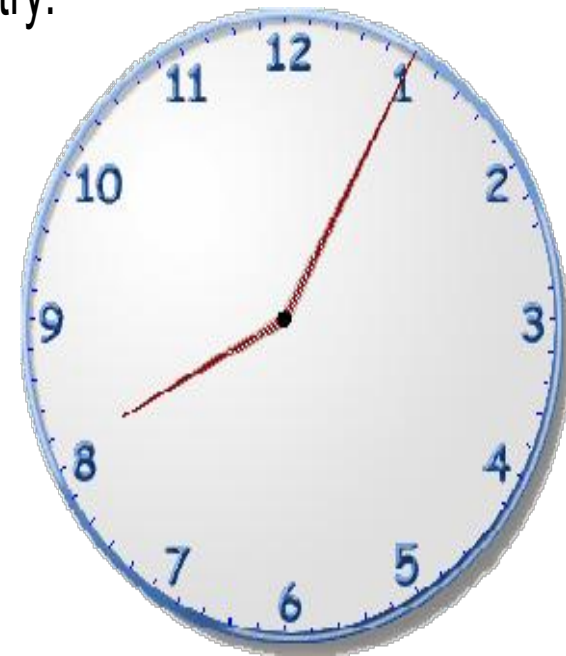

## What Happens Next?

- Some cold gel is spread on your tummy and a scanner is placed over you to look at your bladder.

## How Long Will it Take?

- The test should take approximately 5 minutes, as long as the test works on the first try.

## What do I do?

- You will need to wee on a machine so that the speed can be measured.

## Then What?

- Next the nurse will ask you to lie on a trolley, so she can check if your bladder is empty.
